DMK

Dual-Rail KVM Drawer Rackmount

The Challenge

The integration of data, video and voice communication in computers and the subsequent technological advances have spawn many sophisticated CTI applications that have become accessible and affordable to the small and mid-sized business. The increasing CTI applications coupled with the growing demand for corresponding hardware and systems have created a dilemma: How does one pack the growing number of equipment into existing space?

The Solution

Acme's 1U slim industrial monitor keyboard, the DMK, is the solution for compacting more computing power into limited space. This revolutionary monitor keyboard combines a spectacular display coupled with a keyboard with built-in pointing device in a compact unit that measures only 1U in height. Occupying a fraction of the space of traditional monitor and keyboard units, the installation of the DMK leaves ample space for other critical components. With built-in analog-to-digital conversion board, the DMK can be connected to any standard VGA graphics card for immediate on-screen display. The monitor keyboard unit has a built-in slide rail and mounts easily onto any 19" rackmount cabinet.

Features

- 1U, dual-rails for keyboard and 17" TFT LCD
- Supports both USB or PS/2 interfaces
- Meets EIA310c & IEC-3 specifications
- Compatible with Wintel systems
- Multi-language keyboard available

DMK

D-Sub 15 pin single-port, 8-port, or 16-port with console

Self-locking rails

105 keys + 2-button touchpad

Technical Specifications

Product Versions	DMK 920	DMK 980	DMK 990
Ports	1x D-Sub 15 pins KVM port	8x D-Sub 15 pins KVM ports	16x D-Sub 15 pins KVM ports
Dimensions/Weight	17.42”W x 1.75”H x 19.69”D / 40 lbs	17.42”W x 1.75”H x 23.62”D / 40 lbs	
Diagonal	17", 5:4 Display		
LCD Resolution	1280 x 1024		
Brightness	300 nits		
Contrast Ratio	500:1		
Viewing Angle	170° (H) x 160° (V)		
Color	16.2M Colors		
Backlight MTBF	50,000 Hours under 25±5°C		
Power	60W, 100-240VAC, 50/60Hz		
Keyboard/Mouse	105-key cherry keyboard with 2-button touchpad		
Environmental Specifications			
Operating Temperature	0-50°C (32-122°F)		
Approval	CE, FCC, RoHS
