| <b>Hyper Historian 10.51</b><br>(Released December 2010) | Supported.        | Supported.                       | Supported.                    | Service Pack 2.       | Supported.                    | Supported.         | Not Supported.                |
| <b>Hyper Historian 10.02</b><br>(Released May 2009)      | Supported.        | Supported.                       | Supported.                    | Service Pack 1.       | Supported.                    | Supported.         | Not Supported.                |

\* **Note for Windows 7:** Any supported products will run only on Professional, Enterprise, and Ultimate editions.

\* **Note for Vista:** Any supported products will run only on Business, Ultimate, and Enterprise editions.

\* **Note for XP:** Any supported products will run only on Professional edition.

### Supported Operating Systems for AnalytiX\*

|                                                   | Windows<br>Server 2008 R2<br>x64 | Windows<br>Server 2008 x64 | Windows 7 x64  | Windows Vista<br>x64 | Other Operating<br>Systems |
|---------------------------------------------------|----------------------------------|----------------------------|----------------|----------------------|----------------------------|
| <b>AnalytiX 10.61</b><br>(Released December 2011) | Service Pack 2.                  | Supported.                 | Not Supported. | Not Supported.       | Not Supported.             |

### Supported Operating Systems for Embedded GENESIS

|                                                     | Windows Server 2003 | Windows Vista* | Windows XP*                     | Windows 2000           | Windows NT 4.0                                      | Other Operating Systems |
|-----------------------------------------------------|---------------------|----------------|---------------------------------|------------------------|-----------------------------------------------------|-------------------------|
| <b>Embedded GENESIS 9.01</b><br>(Released May 2007) | Supported.          | Supported.     | Standard and Embedded versions. | Server or Workstation. | Standard and Embedded versions.<br>Service Pack 6a. | Not Supported.          |
| <b>Embedded GENESIS 7.01</b><br>(Released May 2003) | Not Supported.      | Not Supported. | Standard and Embedded versions. | Server or Workstation. | Standard and Embedded versions.<br>Service Pack 6a. | Not Supported.          |

\***Note for Vista:** Any supported products will run only on Business, Ultimate, and Enterprise editions.

\* **Note for XP:** Any supported products will run only on Professional edition.

### Supported Operating Systems for Pocket GENESIS

|                                                     | Windows Mobile 2003                                  | Windows Mobile 6          | Windows Mobile 5.0          | Windows CE     | Other Operating Systems |
|-----------------------------------------------------|------------------------------------------------------|---------------------------|-----------------------------|----------------|-------------------------|
| <b>Pocket GENESIS 9.01</b><br>(Released July 2007)  | SE and standard.<br>Also supported on Phone Edition. | Classic and Professional. | Standard and Phone Edition. | Not Supported. | Not Supported.          |
| <b>Pocket GENESIS 7.0</b><br>(Released August 2003) | Not Supported.                                       | Not Supported.            | Not Supported.              | Supported.     | Not Supported.          |

### Supported Hardware for Pocket GENESIS\*

|                                                     | Smart Phones without touch screen | Pocket PC Devices (with or without built-in phone) |
|-----------------------------------------------------|-----------------------------------|----------------------------------------------------|
| <b>Pocket GENESIS 9.01</b><br>(Released July 2007)  | Not Supported.                    | Supported.                                         |
| <b>Pocket GENESIS 7.0</b><br>(Released August 2003) | Not Supported.                    | Supported.                                         |

\* **Note:** A supported device must also have a supported operating system, as in the table above. A device with supported hardware but a non-supported operating system may not run Pocket GENESIS correctly.

### Supported Operating Systems for OPC ToolWorX

|                                                      | Windows 7      | Windows Server 2008 | Windows Vista*                        | Windows Server 2003                   | Windows XP*     | Windows 2000    | Older Operating Systems             |
|------------------------------------------------------|----------------|---------------------|---------------------------------------|---------------------------------------|-----------------|-----------------|-------------------------------------|
| <b>OPC ToolWorX 3.5</b><br>(Released April 2009)     | Not Tested.    | 32-bit and 64-bit.  | Service Pack 1.<br>32-bit and 64-bit. | Service Pack 2.<br>32-bit and 64-bit. | Service Pack 3. | Service Pack 4. | Not Supported.                      |
| <b>OPC ToolWorX 3.2</b><br>(Released September 2006) | Not Supported. | Not Supported.      | Not Supported.                        | 32-bit only.                          | Supported.      | Supported.      | Windows NT 4.0 with DCOM installed. |
| <b>OPC ToolWorX 3.12</b><br>(Released March 2005)    | Not Supported. | Not Supported.      | Not Supported.                        | 32-bit only.                          | Supported.      | Supported.      | Windows NT 4.0 with DCOM installed. |

\***Note for Vista:** Any supported products will run only on Business, Ultimate, and Enterprise editions (not Home or Home Premium).

\* **Note for XP:** Any supported products will run only on Professional Edition (not Home).

### Supported Development Platforms for OPC ToolWorX

|                                                      | Microsoft Visual Studio 2008 | Microsoft Visual Studio 2005 | Microsoft Visual Studio Express (2005 or 2008) | Microsoft Visual Studio .NET 2003 | Microsoft Visual C++ Version 6.0 |
|------------------------------------------------------|------------------------------|------------------------------|------------------------------------------------|-----------------------------------|----------------------------------|
| <b>OPC ToolWorX 3.5</b><br>(Released April 2009)     | Supported.                   | Supported.                   | Not Supported.                                 | Supported.                        | Supported.                       |
| <b>OPC ToolWorX 3.2</b><br>(Released September 2006) | Not Supported.               | Supported.                   | Not Supported.                                 | Supported.                        | Supported.                       |
| <b>OPC ToolWorX 3.12</b><br>(Released March 2005)    | Not Supported.               | Not Supported.               | Not Supported.                                 | Supported.                        | Supported.                       |

### Supported Configuration and Logging Databases for GENESIS32\*

|                                                 | SQL Server and SQL Express 2008 | SQL Server and SQL Express 2005 | SQL Server 2000 and MSDE               | Earlier versions of SQL Server           | Microsoft Access | Oracle*<br>Data Connector Required in all versions* | Other Databases                                                                        |
|-------------------------------------------------|---------------------------------|---------------------------------|----------------------------------------|------------------------------------------|------------------|-----------------------------------------------------|----------------------------------------------------------------------------------------|
| <b>GENESIS32 9.22</b> (Released July 2011)      | Supported.                      | Supported.                      | Supported.                             | 7.0.                                     | Supported.       | 8.05 and 9i (using Oracle 9i Client Tools).         | TrendWorX32 Logging only: MySQL version 5.0 (using MySQL ODBC Driver version 3.51.09). |
| <b>GENESIS32 9.13</b> (Released September 2008) | Supported.                      | Supported.                      | Supported.                             | 7.0.                                     | Supported.       | 8.05 and 9i (using Oracle 9i Client Tools).         | TrendWorX32 Logging only: MySQL version 5.0 (using MySQL ODBC Driver version 3.51.09). |

| <b>GENESIS32 7.2</b> (Released January 2005)    | Not Supported.                  | Not Supported.                  | Supported.<br>Data Connector Required* | 6.5 and 7.0.<br>Data Connector Required* | Supported.       | 8.0.                                                | Not Supported.                                                                         |
| <b>GENESIS32 6.16</b> (Released April 2003)     | Not Supported.                  | Not Supported.                  | Supported.<br>Data Connector Required* | 6.5 and 7.0.<br>Data Connector Required* | Supported.       | 8.0.                                                | Not Supported.                                                                         |

\* **General Note:** The Data Mining OPC server can query a larger variety of databases than what is listed in this matrix. This matrix is designed to show the databases that can be used as configuration databases for many of our configurators and as logging databases for TrendWorX32 Logger and AlarmWorX32 Logger, since they are more limited in the databases that can be used. “Not Supported” in this matrix does not necessarily mean that the Data Mining OPC server will be unable to query the database.

\* **Note for Oracle:** Oracle is only supported for TrendWorX32 and AlarmWorX32 Logging Databases only. We do not allow any version of Oracle to be used as a configuration database.

\* **Data Connector Note:** A Data Connection license is required to log to this type of database in this version of GENESIS32. Without this Data Connection license the logger will only log for two hours.

### Supported Configuration Databases for BizViz\*

|                                                 | SQL Server and SQL Express 2008 | SQL Server and SQL Express 2005 | SQL Server 2000 and MSDE                                              | Earlier versions of SQL Server | Other Databases |
|-------------------------------------------------|---------------------------------|---------------------------------|-----------------------------------------------------------------------|--------------------------------|-----------------|
| <b>BizViz 9.22</b><br>(Released September 2011) | Supported.                      | Supported.                      | Supported for all BizViz configurators except Productivity Analytics. | Not Supported.                 | Not Supported.  |
| <b>BizViz 9.13</b><br>(Released November 2008)  | Supported.                      | Supported.                      | Supported for all BizViz configurators except Productivity Analytics. | Not Supported.                 | Not Supported.  |
| <b>BizViz 9.01</b><br>(Released March 2007)     | Not Supported.                  | Supported.                      | Supported.                                                            | Not Supported.                 | Not Supported.  |
| <b>BizViz 8.04</b><br>(Released December 2006)  | Not Supported.                  | Not Supported.                  | Supported.                                                            | Not Supported.                 | Not Supported.  |

\* **Note:** BridgeWorX and ReportWorX can both query a larger variety of databases than what is listed in this matrix. This matrix is designed to show the databases that can be used as configuration databases for our BizViz products, since they are more limited in the databases that can be used.

### Supported Configuration and Logging Databases for GENESIS64

|                                                 | SQL Server and SQL Express 2008 R2 | SQL Server and SQL Express 2008 | SQL Server and SQL Express 2005 | Earlier versions of SQL Server | Other Databases |
|-------------------------------------------------|------------------------------------|---------------------------------|---------------------------------|--------------------------------|-----------------|
| <b>GENESIS64 10.61</b> (Released December 2011) | Supported.                         | Supported.                      | Service Pack 2.                 | Not Supported.                 | Not Supported.  |
| <b>GENESIS64 10.51</b> (Released December 2010) | Not Tested.                        | Supported.                      | Service Pack 2.                 | Not Supported.                 | Not Supported.  |
| <b>GENESIS64 10.02</b> (Released May 2009)      | Not Tested.                        | Not Tested.                     | Service Pack 2.                 | Not Supported.                 | Not Supported.  |

### Supported Configuration Databases for AnalytiX\*

|                                                            | SQL Server and SQL Express 2008 R2                  | SQL Server and SQL Express 2008 | SQL Server and SQL Express 2005 | Earlier versions of SQL Server | Other Databases |

| <b>Energy AnalytiX 10.61</b><br>(Released December 2011)   | Standard, Enterprise or Developer only (NO Express) | Not Supported.                  | Not Supported.                  | Not Supported.                 | Not Supported.  |
| <b>Facility AnalytiX 10.61</b><br>(Released December 2011) | Supported.                                          | Supported.                      | Supported.                      | Not Supported.                 | Not Supported.  |

### Supported Web Browsers for GENESIS32 WebHMI

|                                              | Internet Explorer v9 | Internet Explorer v8* | Internet Explorer v7 | Internet Explorer v6 | Earlier Internet Explorer Versions | Other Browsers                    |
|----------------------------------------------|----------------------|-----------------------|----------------------|----------------------|------------------------------------|-----------------------------------|
| <b>WebHMI 9.22</b> (Released July 2011)      | Supported.           | Supported.            | Supported.           | Supported.           | Not Supported.                     | Not Supported.                    |
| <b>WebHMI 9.13</b> (Released September 2008) | Not Tested.          | Supported.            | Supported.           | Supported.           | Not Supported.                     | Not Supported.                    |
| <b>WebHMI 9.01</b> (Released January 2007)   | Not Tested.          | Supported.            | Supported.           | Supported.           | Not Supported.                     | Not Supported.                    |
| <b>WebHMI 8.05</b> (Released November 2008)  | Not Tested.          | Supported.            | Supported.           | Supported.           | Not Supported.                     | Not Supported.                    |
| <b>WebHMI 7.2</b> (Released January 2005)    | Not Tested.          | Not Tested.           | Not Tested.          | Supported.           | Internet Explorer 5.5 and above.   | Netscape Navigator, with plug-in. |
| <b>WebHMI 6.16</b> (Released April 2003)     | Not Tested.          | Not Tested.           | Not Tested.          | Supported.           | Internet Explorer 4.01 and above.  | Netscape Navigator, with plug-in. |

\* **Note for Internet Explorer v8:** Vista or Windows 7 machines being used as WebHMI clients with Internet Explorer v8 must apply this Microsoft patch: <http://support.microsoft.com/kb/941833>

### Supported Web Browsers for BizViz (PortalWorX and Web Interfaces)

|                                              | Internet Explorer v9 | Internet Explorer v8 | Internet Explorer v7 | Internet Explorer v6 | Earlier Internet Explorer Versions | Other Browsers |
|----------------------------------------------|----------------------|----------------------|----------------------|----------------------|------------------------------------|----------------|
| <b>BizViz 9.22</b> (Released September 2011) | Supported.           | Supported.           | Supported.           | Supported.           | Not Supported.                     | Not Supported. |
| <b>BizViz 9.13</b> (Released November 2008)  | Not Tested.          | Supported.           | Supported.           | Supported.           | Not Supported.                     | Not Supported. |
| <b>BizViz 9.01</b> (Released March 2007)     | Not Tested.          | Not Tested.          | Supported.           | Supported.           | Not Supported.                     | Not Supported. |
| <b>BizViz 8.04</b> (Released December 2006)  | Not Tested.          | Not Tested.          | Supported.           | Supported.           | Not Supported.                     | Not Supported. |

### Supported Web Browsers for GENESIS64

|                                                    | Internet Explorer v9 | Internet Explorer v8 | Internet Explorer v7 | Internet Explorer v6 | Earlier Internet Explorer Versions | Other Browsers      |
|----------------------------------------------------|----------------------|----------------------|----------------------|----------------------|------------------------------------|---------------------|
| <b>GENESIS64 10.61</b><br>(Released December 2011) | Supported.           | Supported.           | Supported.           | Not Supported.       | Not Supported.                     | Not Supported.<br>* |
| <b>GENESIS64 10.51</b><br>(Released December 2010) | Not Tested.          | Supported.           | Supported.           | Not Supported.       | Not Supported.                     | Not Supported.<br>* |
| <b>GENESIS64 10.02</b><br>(Released May 2009)      | Not Tested.          | Supported.           | Supported.           | Supported.           | Not Supported.                     | Not Supported.      |

\* **Note:** Browsers supporting appropriate version of Silverlight technology may be able to show displays saved for Silverlight.

### Supported Web Browsers for AnalytiX

|                                                   | Internet Explorer v9 | Internet Explorer v8 | Internet Explorer v7 | Earlier Internet Explorer Versions | Other Browsers |
|---------------------------------------------------|----------------------|----------------------|----------------------|------------------------------------|----------------|
| <b>AnalytiX 10.61</b><br>(Released December 2011) | Supported.           | Supported.           | Supported.           | Not Supported.                     | Not Supported. |

### Supported Versions of SharePoint

|                                                       | SharePoint 2010                           | Microsoft Office SharePoint Server (MOSS) 2007 | SharePoint Services 3.0 | SharePoint Services 2.0 | SharePoint Portal Server 2003 |
|-------------------------------------------------------|-------------------------------------------|------------------------------------------------|-------------------------|-------------------------|-------------------------------|
| <b>PortalWorX64 10.61</b><br>(Released December 2011) | Supported.                                | Not Supported.                                 | Not Supported.          | Not Supported.          | Not Supported.                |
| <b>PortalWorX 9.22</b><br>(Released September 2011)   | Supported with 2007-compatible rendering. | Supported.                                     | Supported.              | Supported.              | Not Supported.                |
| <b>PortalWorX 9.13</b><br>(Released November 2008)    | Not Supported.                            | Supported.*                                    | Supported.*             | Supported.              | Not Supported.                |
| <b>PortalWorX 9.01</b><br>(Released March 2007)       | Not Supported.                            | Not Supported.                                 | Not Supported.          | Supported.              | Not Supported.                |
| <b>PortalWorX 8.04</b><br>(Released December 2006)    | Not Supported.                            | Not Supported.                                 | Not Supported.          | Supported.              | Supported.                    |

\* **Note:** If using 64-bit Windows Server 2008 you must use SharePoint Services 2.0 instead of MOSS 2007 or SharePoint Services 3.0 due to a known issue running in 32-bit compatibility mode on this operating system. This issue does not occur in 32-bit Windows Server 2008, and it has been resolved with version 9.21.

### ICONICS Compatibility on One Machine

This table describes which versions of ICONICS products can be installed on the same machine because they share a common licensing version. Items on the same row can be installed on the same machine. Items on different rows require different licensing versions so they cannot be installed on the same machine.

| GENESIS32 & BizViz | GENESIS64, AnalytiX, & Hyper Historian | ICONICS OPC Server Suite |
|--------------------|----------------------------------------|--------------------------|
| 9.0x/9.1x          | 10.0x                                  | 4.3                      |
| 9.20/9.21          | 10.5x                                  | 5.3/5.5                  |
| 9.22               | 10.6x                                  | 5.3/5.5                  |

# ICONICS – Compatible Software and Operating Systems

## APPLICATIONS NOTE

December 2011

### Supported Hardware Licenses

|                                                  | Sentinel USB Key (black) | One-Wire USB Key (blue) | Parallel Port Key |
|--------------------------------------------------|--------------------------|-------------------------|-------------------|
| <b>GENESIS64, Hyper Historian, AnalytiX 10.x</b> | Supported.               | Not supported.          | Not supported.    |
| <b>GENESIS32 &amp; BizViz 9.22</b>               | Supported.               | Not Supported.          | Not Supported.    |
| <b>GENESIS32 &amp; BizViz 9.13</b>               | Supported.*              | Supported.*             | Supported.*       |
| <b>GENESIS32 &amp; BizViz 9.01</b>               | Supported.*              | Supported.*             | Supported.*       |
| <b>GENESIS32 &amp; BizViz 8.05</b>               | Supported.               | Supported.              | Supported.        |
| <b>GENESIS32 &amp; BizViz 8.04 or earlier</b>    | Not supported.           | Supported.              | Supported.        |

\* **Note for GENESIS32 & BizViz 9.1x and 9.0x:** ICONICS recommends installing the 9.14 Licensing Service Pack to any 9.1x or 9.0x system. Some 9.0x or 9.1x versions will not support all hardware key types unless the 9.14 Licensing Service Pack has been applied.

### Supported SNMP Versions for GENESIS32 and GENESIS64

|                                                    | SNMP v2      | SNMP v1      |
|----------------------------------------------------|--------------|--------------|
| <b>GENESIS64 10.61</b><br>(Released December 2011) | Supported.   | Supported.   |
| <b>GENESIS64 10.51</b><br>(Released December 2010) | Supported.   | Supported.   |
| <b>GENESIS32 9.22</b><br>(Released July 2011)      | Supported.   | Supported.   |
| <b>GENESIS32 9.13</b><br>(Released September 2008) | Supported. * | Supported. * |
| <b>GENESIS32 9.01</b><br>(Released January 2007)   | Supported. * | Supported. * |

\* **Note:** The SNMP Configurator in versions 9.13 or earlier can only be configured to use one SNMP version at a time. Most SNMP version 2 devices can use SNMP version 1 to communicate, so if you have a mix of SNMP v1 and v2 devices on your network it's recommend to configure the SNMP Configurator to use SNMP v1.
