

Description: Guide to the new licensing web pages.
OS Requirement: Win 2000 Pro/Server, XP Pro, Server 2003
General Requirement: GENESIS32 or BizViz (any version).

Introduction

Along with 9.1 GENESIS32, we have released a new version of our licensing web pages. Many improvements have been made over the old system of websites, making authorizing new licenses, adding products to existing licenses, and killing licenses a more pleasant process.

Licensing New Machine

- On the machine where you want the GENESIS32 license to reside, open the License Utility by going to Start → Programs → ICONICS Software Licensing.
- Once the License Utility opens, go to Actions → Authorize License.
- You will see a dialog come up with a Site Code and a blank for a Site Key as show in figure below. Leave this window open.

- Go to <http://www.iconics.com/support/licenseproduct.asp> and log in with your user name and password.

- Once you have logged into the website, click on the “New License” link in the top navigation bar.
- Enter your Customer Key and Product Registration Number for the product.

NOTE: Your Customer Key and Product Registration Number are usually on the back of the original CD that ICONICS sent you.

- In the next screen, you will see a list of the products that are available for you to license; check all the products that you would like to license and copy and paste the Site Code onto the website from the license utility of the destination station

- Select “Generate SiteKey” as shown in the figure below.
- Next page shows you a summary of what will be in your license.

- Copy and paste the generated Site Key into your License Utility and click on the Update Button.
- You should now have a license when you go to Actions → View License.

Killing License

Go to <http://www.iconics.com/support/licenseproduct.asp> and log in with your user name and password.

- Once you have logged into the website, click on the “Kill License” link.

- Open your License Utility on your source machine by going To Start → Programs → ICONICS Software Licensing.
- Once the License Utility is opened, go to Actions → Kill License.
- It will then ask you for a user name and password as seen in figure below. Enter your name and the password: “itisok” (without quotes).

- Copy the Site Key in to the Site Key field on the webpage and the Kill Confirmation Code into the Kill Code field on the webpage and select “Complete” button in the webpage.
- You will then get a message confirming that the Site Key has been successfully deleted as shown in the figure below.

Product Key	Product Description	Order Date	Order #	RegNo	Customer Key	ICNo
C15281249-1000	GEN32 1528 PT V9 - 36 DAY CONSIGNMENT	14/08/2007	2238942	P144123483	CUS02096	1000

Adding To Existing License

Go to <http://www.iconics.com/support/licenseproduct.asp> and log in with your user name and password.

- Once you have logged into the website, click on the “Add to License” link. You will see the current License Summary.

Select	Product Key	Product Description	RegNo	Customer Key	ICNo
☒	B212 SP V9 C12	12 MONTH CONSIGNMENT LICENSE FOR V9 B212	P148418844		

- Select “Select Items to Add”, and enter your Current Site Key, Customer Code , and Product Registration Number.

RegNumber	CustomerCode
P148418844	CUS00001

- Select “Generate Site Key” as shown in the figure below.

Product Key	Product Description	RegNo	ICNo
GEN32 1528 PT V9 C12	3 MONTH CONSIGNMENT LICENSE FOR V9	P144123483	1000

- Select “Complete” and the Site Key will be registered for License activation as shown in the figure below.

Product Key	Product Description	Order Date	Order #	RegNo	Customer Key	ICNo
B212 SP V9 C12	12 MONTH CONSIGNMENT LICENSE FOR V9 B212	21/08/2007	2247042	P148418844	CUS00001	210

- Enter the Site key into the Iconics License Utility for License activation.
