

Licensing – Using the ICONICS Web Licensing Utility to Transfer a License

APPLICATIONS NOTE

July 2011

Description: Guide to transferring your license using the ICONICS website

OS Requirement: Win 2000, XP Pro, Server 2003, Vista, Server 2008, Windows 7

General Requirement: A valid license on the source machine and installation of GENESIS32 licensing on the destination machine.

Introduction

From time to time you may need to upgrade your machines and you will need to move the GENESIS32 license from the old machine to the new machine. This document will describe how to transfer the license via the ICONICS website.

Removing Your License

1. Go to <http://www.iconics.com/supportworx>, click License Product link on the right, then select Software and log in with your user name and password.

NOTE: If you do not have a user name and password pair or that you have forgotten your user name and password, you can simply register for one.

2. Once you have logged into the website, click on the “Kill license” link.
3. You will see at the top of the page a dialog box similar to Figure 1

Figure 1 - Site Key/Kill Code Dialog

4. Open your License Utility on your source machine by going to Start → Programs → ICONICS Licensing → ICONICS Licensing → License Utility
5. Once the License Utility is opened, go to Actions → Authorize License
6. A few messages will pop up asking you if you really want to kill the license, confirm that you do.
7. You will then get a window with your Site Key and Kill Code in it.
8. Copy the Site Key in to the Site Key field on the webpage and the Kill Confirmation Code into the Kill Code field on the webpage and click on the “Next” button in the webpage.
9. You will then get a message confirming that the license has been successfully removed.

Licensing Your New Machine

1. On the machine where you want the GENESIS32 license to reside, open the License Utility by going to Start →

Programs → ICONICS Licensing → ICONICS Licensing → License Utility

2. Once the License Utility opens, go to Actions → Authorize License
3. You will see a dialog come up with a Site Code and a blank for a Site Key as shown in Figure 2. Do NOT close this window during this entire process, it will generate a new Site Code if you do and the Site Key generated on the website will not match.

Figure 2 - License Authorization Dialog

4. Go to <http://www.iconics.com/supportworx>, click License Product link on the right, select Software and log in with your user name and password.
5. Once you have logged into the website, click on the “New license” link.
6. Enter your Product Registration Number and Customer Key for the product.

NOTE: Your Product Registration Number and Customer Key are usually inside the DVD tin package that we send you.

7. Click the “Next” link once you have entered all of your Product Registration Numbers.
8. In the next screen it is requested to identify the end user for whom the license is being issued. You can look up a list of already inserted end users or insert a new one by clicking the “Existing End Users” link or clicking the “Create New” link respectively.

Figure 3 - Identify End User

9. Clicking the Existing End Users link, will open a new window with a list of already inserted end users previously

entered by you or tied to the product registrations numbers entered in the previous screen. Select an end user from the list and click Select or double click the selected end user. If you are the end user and you are not listed in the grid, you can click on I am the End User to insert your data as the new end user. After identifying the end user, click on “Next”.

Company	Country	State
ICONICS, Inc.	USA	MA
ICONICS, Inc.	USA	MA
ICONICS, Inc.	USA	MA
Jerry, Inc.	USA	MA

Figure 4 - Select End User

10. In the next screen, you will see a list of the products that is available for you to license; check all the products that you would like to license and copy and paste the Site Code onto the website from your license utility. Click on the “Next” link.
11. This page shows you a summary of what will be in your license, check to make sure everything is correct and click on the “Generate Key” button
12. Note the generated Site Key into your License Utility
13. Save the License File (a *.glic file) and browse for it in the License Authorization dialog.
14. Once you put a file in, the Activate License button will become available, click on the button to activate the license.
15. You should now see the license information by going to Actions → View License.
