

Description: Guide to the ICONICS Web Licensing Utility for Software License.

OS Requirement: Win 2000, XP Pro, Server 2003, Vista, Server 2008, Windows 7

General Requirement: Internet Browser (IE 6 or later), GENESIS32.

Issue a new Software License

- On the machine where you want the license to reside, open the License Utility by going to Start → Programs → ICONICS Licensing → License Utility.
- Once the License Utility opens, go to Actions → Authorize License.
- You will see a dialog appear with a Site Code as shown in figure below. Leave this window open.

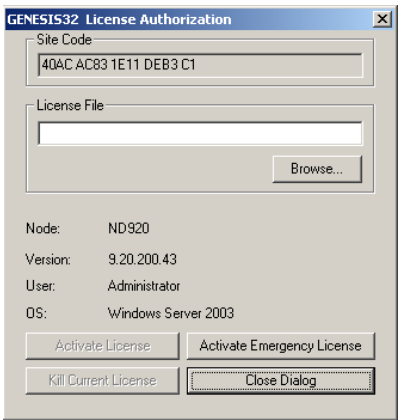

Figure 1 - License Authorization Dialog

- Go to the Home page of the ICONICS Web Licensing Utility at <http://supportworx.iconics.com/License/> and select the Software License Icon to access the Software License Options

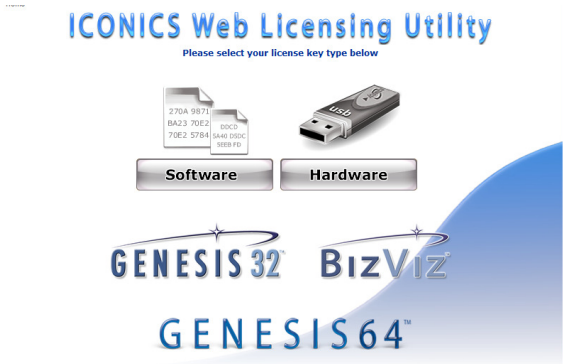

Figure 2 - ICONICS License Web Site

- You will be required to log in to access the Software License Options. Insert your email address and password and click on the “Login” button.
- NOTE:** If you do not yet have an account, you can click on the “Create New Account” link to make an account.
- Once you have logged into the website, click on the “New License” link in the top navigation bar.
 - Enter your Product Registration Numbers and Customer Keys for the products to License. Click “Next”.

Figure 3 - New License

NOTE: Your Product Registration Number and Customer Key are usually inside the DVD tin package that ICONICS sent to you.

- In the next screen it is requested to identify the end user for whom the license is being issued. You can look up a list of already inserted end users or insert a new one by clicking the “Existing End Users” link or clicking the “Create New” link respectively.

Figure 4 - Identify End User

- Clicking the Existing End Users link, will open a new window with a list of already inserted end users previously entered by you or tied to the product registrations numbers entered in the previous screen. Select an end user from the list and click *Select* or double click the selected end user. If you are the end user and you are not listed in the grid, you can click on *I am the End User* to insert your data as the new end user. After identifying the end user, click on “Next”.

Licensing – Using the ICONICS Web Licensing Utility for Software Key Licenses

APPLICATIONS NOTE

July 2011

End User Look Up -- Webpage Dialog

END USER LOOK UP

Select an end user from the list below.

Company	Country	State
ICONICS, Inc.	USA	MA
ICONICS, Inc.	USA	MA
ICONICS, Inc.	USA	MA
Jerry, Inc.	USA	MA

Select Cancel

Create New I am the End User

Figure 5 - Select End User

- In the next screen, you will see a list of the products that are available for you to license; check all the products that you would like to license. Copy the Site Code from the ICONICS License Utility (see step 3) of the destination machine and paste it into the Site Code text box of the current web page. Click on “Next”.

Home > Software License > New License

New License

Below are the product(s) that you have purchased and that have not yet been assigned a Site Key.
To register product(s) to a specific system, do the following:

- Enable the check box(es) next to the product name(s) that you would like to assign.
- Enter the site code into the Enter Site Code text box.
- The Site Code can be found in the ICONICS License Utility. Select the Authorize License command from the Actions menu to view the Site Code.
- Click the Next button to continue.

Figure 7 - Review the License Information

- The next page will show you the information for your license. Download the license file (*.glic) by clicking on the link. You will need this file to license the machine.

Home > Software License > New License

The following License File has been assigned to your system for use in license activation.
Use the License File inside the ICONICS Software Licensing Utility.
Please keep the Site Key for future reference purposes.

Site Code: 54B3 AE27 40AD ADE7 D5
Site Key: 1B44 954F E61A 79ED 5FFA 6610 7C

Download the following **LICENSE FILE** to authorize your license
[Click here to download](#)

Product Key	Product Description	Order Date	Order #	PRegNo	GRegNo	Customer Key
GEN64-v10.5 TEST LAB	v10.5 LICENSE	12/February/2010	29549HQ	PN8881113111111543	GNDE6805A83AB65F45	CUS02266

We recommend that you print this screen for your records. Use the print friendly button on the left.
An email has been sent to your email account with the above information.

Thank you for choosing ICONICS.

Figure 8 - Site Key

NOTE: If you misplace the file after licensing it, you can use the View License link with your Product Registration Number to download it again.

- In the License Utility, click the Browse button and select the file you downloaded in the previous step then hit Activate License.
- Your license should now be activated. You can view the license by closing the license authorization dialog and going to Actions → View License.
- Notice that the Site Code has changed. This is expected. The Site Key should be the same one you saw on the website, however.

Adding To Existing Software License

Follow steps 1-6 from the “Issue a new Software License” section to open the licensing dialog and log into the website then continue with the steps below.

- Click on the “Add to License” link on the top menu bar.
- Enter your Existing Site Key, Product Registration Numbers, and Customer Keys. Click “Next”.

Home > Software License > Add To License

Add To License

Use the Add To License option below to modify an existing license to include products you have purchased.
To add to a license, do the following:

- Enter your assigned Site Key into the Existing Site Key text box.
- The Site Key should be identical to the one found in the ICONICS License Utility on your system. Use the View License command on the Actions menu to display this information.
- In the Product Registration column enter the registration number(s) and the associated Customer Key on the right. Product Registration Number(s) and Customer Key(s) can be found on the back of the ICONICS CD/DVD case(s).
- For multiple registrations enter each on a separate row.
- Click the Next button to continue.

Existing Site Key: 400A 27DD AA32 ACA0 0D94 5567 0F30 EA03 40AD EA

Figure 9 - Adding to Existing Software License

- In the next screen, you will see a summary of the current license and a list of the products that are available for you to add to the existing license. Check all the products that

you would like to license. Copy the Site Code from the license utility of the destination machine and paste it into the Site Code text box of the current web page. Click “Next”.

Figure 10 - Available Products

- Review the license information before proceeding. Select “Generate Key”.

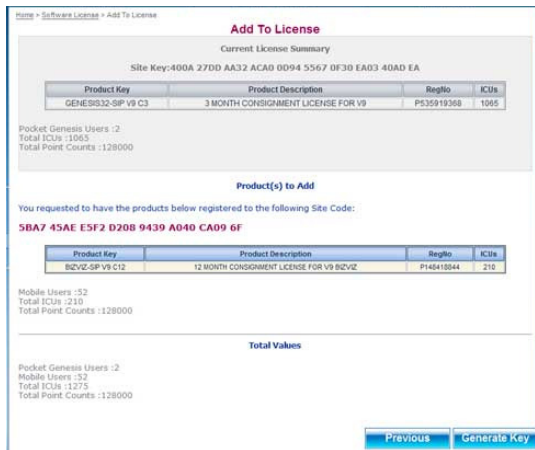

Figure 11 - Generating Site Key

- The next page will show you the information for your license. Follow steps 13-16 from the “Issue a new Software License” section to complete the licensing process.

Killing a Software License

Follow steps 4-6 from the “Issue a new Software License” section to log into the website then continue with the steps below.

- Once you have logged into the website, click on the “Kill License” link in the top navigation bar.
- On the machine where the license currently exists, open the License Utility by going to Start → Programs → ICONICS Licensing → License Utility
- Go to Actions → Authorize License.

- Click the Kill Current License button.
- It will ask you to confirm that you want to kill the license, then it will show you the kill code and the location of the KillCode.txt file.

NOTE: The Application Data folder may be hidden by default. Go to Tools → Folder Options → View tab and select “Show hidden files and folders” to see this folder.

- Open the KillCode.txt file and copy the Site Key and the Kill Confirmation Code into the appropriate fields in the webpage then click the “Remove Key” button.
- You will get a message confirming that the Site Key has been successfully deleted. The products associated with the deleted Site Key will be available on the website to be authorized to a new machine.

Activating an Emergency License

With GENESIS32 or BizViz 9.1 and higher or GENESIS64 10.5, ICONICS makes an emergency license available on the ICONICS Web Licensing Utility in case the original license is lost. This emergency license can be activated only once. It is identical to the original license except it lasts only for 60 days. The emergency license is designed to provide time to arrange for the replacement of the license. Once the permanent license has been replaced, the emergency 60-day license will be made available again for future use.

NOTE: Activating an Emergency license may destroy an existing license! Please do not activate an emergency license when another license is active. We recommend contacting ICONICS Technical Support before activating an emergency license.

For a given Product Registration Number starting with “PN”, the emergency license can be activated using the same Product Registration Number starting with “PE”. For example, for the Registration Number:

PN123ABC456DEF789G

the emergency Product Registration Number would be:

PE123ABC456DEF789G

The Customer Key number (CUS.....) is the same for both the permanent and the emergency license.

Please fill in the online “Key Replacement Form” at <http://supportworx.iconics.com/License/Visualization/KeyReplForm.aspx>

to start the replacement process of the original license if your license has been lost. Once your license has been recovered, follow the steps in the section titled, “Issue a new Software License” to activate the new license.

NOTE: The ICONICS License Utility gives you another emergency license that can be activated if needed. After opening the “Authorize License” please refer to the button “Activate Emergency License”.
